SKILLS

- Excellent skills in troubleshooting, constructive feedback, teamwork, and collaboration.
- Proficient with VSCode, Git, GitHub, and terminal
- Well versed in programming languages like Java, C, C++, HTML, CSS, and JS.

EDUCATION

UC San Diego, La Jolla - *Current*

September 2025 - Present

Working towards a B.S. in Computer Science with a current GPA of 3.757.

Palomar College, San Marcos - *A.S. in University Studies: Scientific Studies*

August 2023 - June 2025

Completed general education courses and courses for major requirements in computer science with a 4.0 cumulative GPA.

Mission Hills High School, San Marcos - *Diploma*

August 2019 - June 2023

Completed rigorous honors and AP courses with a cumulative GPA of 4.24.

WORK EXPERIENCE

Upper Deck Company - Gaming QA Intern

June 2025 - September 2025

- Interacted with others in a professional manner
- Gave constructive criticism on how to improve unreleased board games
- Analyzed what went wrong with a game, why it was wrong, and possible avenues to fix it
- Kept detailed records of play tests, what needed to change, what has been updated, what time, who was participating in the play test, etc.

Pet Sitter

October 2021 - Present

- Demonstrated flexibility in scheduling to work with various needs of pet owners while juggling work, homework, classes, and studying.
- Served 5 pet owners for at least one week each, spending 2-3 hours per day taking care of up to 2 pets.

Projects

IEEE UCSD - Spring Quarterly Project

Spring 2026

- Worked in a team of 4 to create a scooter security system for UCSD students that recognizes their student ID, and links them to a website to see in-real-time their scooter's safety information, allows them to enable/disable the security system, and sends notifications if someone unauthorized attempts to steal their scooter.
- Used ArduinoIDE and HTML, CSS, JS, and C++ to code an interactive website that connects to an esp32 device on the scooter that can send and receive signals over WiFi and send notifications to the user.

CSE 110 Software Engineering - WatchTower Project

Spring 2026

- Worked in a team of 11 on a WatchTower project throughout the quarter that monitors the user's website and monitors key metrics such as uptime, errors, response time, and load time. This information is then displayed on the team's website with graphs for further analysis.
- Worked on the frontend and contributed to many different areas. Employed a basic understanding of Node.js, which we used in the dashboard of our website to display graph data collected.

Extra Curriculars

IEEE at UCSD - Institute of Electrical and Electronics Engineers

Spring 2026 - Present

- Internal Board Member: Webmaster
- I handle upgrades and maintenance of the UCSD IEEE organization's website and dashboard.
- I attend weekly internal board meetings to discuss goals, plans, and accomplishments
- I regularly help with other events for IEEE as needed such as tabling to promote the organization and attending workshops.

Robotics Club - FRC Team 5137, Iron Kodiaks

August 2019 - June 2023

- Worked for 4 years in a team to design, write, and test code with other students in the programming discipline.
- Communicated with members of the mechanical and electrical disciplines to coordinate code and the physical mechanisms of the robot.
- Collaborated closely with mentors who were industry professionals to identify issues in our code and resolve them in a timely manner.
- Contributed to 25% of the robot's code functionality.

IIMA Karate - International Institute of Martial Arts

September 2012 - March 2020

- Went to karate multiple times a week for 8 years and underwent a 15-hour black belt testing to earn a black belt.
- Volunteered for 2 years teaching younger students proper form and technique after becoming a red belt.

AWARDS

- Cardinal Scholar - Mission Hills High School - awarded in 2023.
- Dean's List - Palomar College - awarded in 2023, 2024, and 2025.
